

Description

Drum toppers are pre-cut sheets designed to neatly fit the top of 205 litre drums and are used to prevent splashes and drips running down the drum sides when dispensing to or from the drum. These are designed to absorb both oil and water based fluids so are best used in under cover situations.

Benefits & Features

- Absorb both oil and water based fluids
- Cut to fit 205 litre drum tops
- Pre-cut holes for bung and oil fill positions
- Keep the area safe around drum filling stations

Directions for Use

Place the topper on drum top, aligning with bung and oil fill holes. When saturated, dispose of in conformance with local and national waste disposal regulations.

Technical Data

Appearance:	Grey circular sheet
Material:	Polypropylene
Dimensions:	56cm diameter
Absorbency:	Approx 0.75 litres per topper
Saturation Time:	Approx 60-90 seconds for 10W/40 engine oil

Packaging

1 Box = 25 Mats
