

Description

PROTEAN Seize Release+ is a NSF: H1 registered, spray-formulated, fast acting penetrating and dismantling lubricant, suitable for use within Food & Beverage, Packaging, Pharmaceutical and other cleanroom environments. Engineered to 'shock' components through rapid freezing, PROTEAN Seize Release+ quickly penetrates seized and rusted parts, enabling optimum 'release' and easy dismantling.

Benefits & Features

- NSF: H1 registered
- Fast acting Freeze & Release action for easy dismantling of seized, corroded and rusted parts
- Enables rapid and efficient wicking of the lubricant for deep penetration
- Suitable for use on all metals and most common plastics and rubbers
- Released parts remain lubricated and protected from corrosion
- 360° valve for inverted use

Directions for Use

- Store out of direct sunlight and below +50°C (ideally between +10°C and +25°C)
- Consult the safety data sheet prior to use
- Shake aerosol can well before use
- Spray components in short blasts
- Components will be extremely cold once treated
- DO NOT TOUCH COMPONENTS WITH BARE SKIN once they have been sprayed

Technical Data

Category	H1 (lubricant with incidental food contact, for use in and around food processing areas)
NSF Certificate No.	154795
	Does not contain any genetically modified ingredients, nut oils or animal derivatives
Appearance	Clear
Odour	Barely perceptible
Propellant(s)	Propane / Butane
Flammability	Extremely flammable
Storage	Out of direct sunlight, below +50°C
Flash Point	-60°C
Relative Density	0.76
Solubility in water	Insoluble
Pack Sizes	12 x 400ml cans
