

# HIGH LOAD CUTTING & TAPPING FLUID POWER CUT FLUID

### Product Overview

Containing Ultra EP additives, New Tech Lubes Cutting & Tapping Fluid is designed to reduce friction, increase metal removal speeds and extend the life of the tools' cutting edge, all to give an improved surface finish and accuracy.

### Features and Benefits

- Exceptional load carrying properties
- Excellent adhesion to tool edges
- Better finish to machine parts
- Easy to apply
- Reduces friction which prolongs tool life
- Allows higher rate of metal removal
- Does not contain silicone
- Also available in a large 500ml aerosol can

### Typical Applications

- Reaming, tapping and drilling
- Broaching of tough alloy steels
- Tapping of stainless steel
- All slow speed machining
- Screw cuttings
- Thread cutting on electrical conduit

### Directions for Storage and Use

Apply to cutting tool prior to use and reapply as necessary  
 Product is to be stored in a clean, dry, storage area in its original sealed packaging.  
 Shelf Life (unopened) – 3 years approx \*

#### Disclaimer

The data sheet is based on personal knowledge and experience and is given as a guideline to its possible uses. It does not take into account variables or conditions out of our control that can affect our product in any way. It is the users' sole responsibility to ensure that the product is suitable for the purpose for which it is being used and this data does not in any way form a warranty. If you are unsure of its suitability please contact us and we will be happy to discuss your needs and supply a sample for testing if required. New Tech Lubes Ltd is committed to supplying the best products and may therefore change the information in this specification at any time.

Available Sizes
250ml oil spout bottle
1ltr
5ltr
25ltr
Available in 500ml Aerosol

Physical Characteristics	
Flashpoint	>110°C
Constituents	HBP fractions + additives
Appearance	Brown Fluid

Available Grades
