

# NEAT CUTTING PASTE POWER CUT PASTE

### Product Overview

*Power Cut Paste is a soft, low melting, point cutting lubricant designed specifically for use where good adhesion to the work piece and good extreme pressure resistance is a necessity*

### Features and Benefits

- Exceptional load carrying properties
- Excellent adhesion to tool edges
- Better finish to machine parts
- Easy to apply
- Reduces friction which prolongs tool life
- Allows higher rate of metal removal
- Does not contain silicone

### Typical Applications

- **Reaming, tapping and drilling**
- **Broaching of tough alloy steels**
- **Tapping of stainless steel**
- **All slow speed machining**
- **Screw cuttings**
- **Thread cutting on electrical conduit**

### Directions for Storage and Use

*Apply to cutting tool prior to use and reapply as necessary*

*Product is to be stored in a clean, dry, storage area in its original sealed packaging.*

*Shelf Life (unopened) – 3 years approx \**

It does not take into account variables or conditions out of our control that can affect our product in any way. It is the users' sole responsibility to ensure that the product is suitable for the purpose for which it is being used and this data does not in any way form a warranty. If you are unsure of its suitability please contact us and we will be happy to discuss your needs and supply a sample for testing if required. New Tech Lubes Ltd is committed to supplying the best products and may therefore change the information in this specification at any time.

Available Sizes
100 Lube Tube
500g Pot
5kg Pail

Physical Characteristics	
Flashpoint	>110°C
Constituents	HBP fractions + additives
Appearance	Brown Fluid

Available Grades
