

Description

SK15(U) is developed for the absorption of almost any liquid including concentrated acids and solutions. This is a small spill kit in a snap-close plastic carry bag. This handy, on-the-go size, provides the essential absorbents required for small spills that may potentially occur anywhere.

Benefits & Features

- Absorbs up to 15 Litres
- The snap-close plastic carry bag makes the SK15(U) very easy to carry around.
- Ideal for use on Oils, Fuels, Solvents, Alcohols, water, Common Aqueous Solutions & Concentrated Acids & Solutions.
- Very compact which facilitates easy storage
- Contains Waste Disposal bags to ensure the waste is disposed of correctly
- Contains an easy to read, step by step Spill Response Action Leaflet

Directions for Use

1. Identify the type of liquid and ensure the safety of all persons in the vicinity of the spill.
2. In the case of hazardous liquids, be sure to wear appropriate protective clothing, i.e. gloves, goggles, coveralls.
3. Ensure that all drains are protected using drain covers.
4. Use socks or mats to prevent the liquid spreading towards the drains.
5. If possible, identify and stop the leak at source.
6. Use the mats to clean up the spill; dispose of soiled absorbents using the waste-disposal bag provided.
7. Report the incident!
