

## Description

SK90(M) is developed for the absorption of all oil, water and common aqueous solutions. This is a medium capacity spill kit in a tough 2-wheeled bin that can be easily moved to the spill location. The SK90(M) provides a practical means of storage, as well as initial containment for absorbents requiring disposal after a spill.

## Benefits & Features

- Absorbs up to 90 Litres
- The tough 2-wheeled bin makes the SK90(M) very easy to move around large sites.
- Ideal for absorbing Oils, Fuels, Solvents, Alcohols, Water & other common aqueous solutions
- Product identification label to eliminate confusion
- Contains Waste Disposal bags to ensure the waste is disposed of correctly
- Contains an easy to read, step by step Spill Response Action Leaflet

## Directions for Use

1. Identify the type of liquid and ensure the safety of all persons in the vicinity of the spill.
2. In the case of hazardous liquids, be sure to wear appropriate protective clothing, i.e. gloves, goggles, coveralls.
3. Ensure that all drains are protected using drain covers.
4. Use socks or mats to prevent the liquid spreading towards the drains.
5. If possible, identify and stop the leak at source.
6. Use the mats to clean up the spill; dispose of soiled absorbents using the waste-disposal bag provided.
7. Report the incident!

## Technical Data

Appearance	Yellow bin with Grey Absorbents
Contents	1 x SKB120 Wheeled Bin - Yellow 60 x AM112 Maintenance Absorbent Mats - Medium 8 x AM131 Maintenance Absorbent Socks 1.2m 4 x SKC586 Special Waste Disposal Bag 1 x TA112 Barrier Tape 1 x SKIL Spill Kit Instruction Leaflet
Pack Sizes	1 Kit
