

Description

SK90(M)R is developed for the absorption of all oil, water and common aqueous solutions. Designed as a refill kit for the SK90(M) which provides a practical means of storage, as well as initial containment for absorbents requiring disposal after a spill.

Outstanding Features

- Absorbs up to 90 Litres
- Ideal for absorbing Oils, Fuels, Solvents, Alcohols, Water & other common aqueous solutions
- Product identification label to eliminate confusion
- Contains Waste Disposal bags to ensure the waste is disposed of correctly
- Contains an easy to read, step by step Spill Response Action Leaflet

Directions for Use

1. Identify the type of liquid and ensure the safety of all persons in the vicinity of the spill.
2. In the case of hazardous liquids, be sure to wear appropriate protective clothing, i.e. gloves, goggles, coveralls.
3. Ensure that all drains are protected using drain covers.
4. Use socks or mats to prevent the liquid spreading towards the drains.
5. If possible, identify and stop the leak at source.
6. Use the mats to clean up the spill; dispose of soiled absorbents using the waste-disposal bag provided.
7. Report the incident!
