TECHNICAL DATA SHEET PROTEAN CHAIN & GEAR 460 TF5505

Description

PROTEAN Chain & Gear 460 is an NSF: H1 registered, fully synthetic oil designed for the effective lubrication of all types of conveyor and drive chains that require an ISO 460 oil within Food & Beverage, Packaging, Pharmaceutical and other cleanroom environments. Suitable for gearboxes and reduction units, PROTEAN Chain & Gear 460 contains additives to extend servicing and lubrication intervals, boost performance, improved adhesion and offers excellent water wash-off resistance.

Benefits & Features

Chains (Drive and Conveyor)

- · Penetrates to the links and pins reducing wear and extending chain life
- · Adhesive additives ensure no fling, thus providing lasting lubrication
- · Effective water resistance and corrosion prevention, even where alkali materials are present
- · Extremely wide temperature range ensures maximum application versatility

Gearboxes & Reduction Units

- · Extremely good oxidation stability which extends lubricant life
- · Unaffected by water, demulsification ensures total separation of water from oil
- · Adhesive additives coat gears effectively and provide anti-wear protection at start-up
- · Synthetic oil with high Viscosity Index ensures reduced viscosity change with temperature increase

Directions for Use

For drive and conveyor chains: Apply sparingly by brush or oil can as required. It can also be applied automatically via a central drip-feed system.

For gear boxes or reduction units: Ensure that the manufacture's lubricant rating corresponds to ISO 460 gear oil. For optimum performance, drain gearbox of all previous lubricant.
