TECHNICAL DATA SHEET

## Description

A food grade, non-toxic oil developed for hydraulic systems in the food, drink, pharmaceutical and packaging equipment industries. Also for use in other applications where a clean, non-staining hydraulic oil is required.

## Benefits \& Features

- Low friction coefficient for excellent lubrication and wear reduction
- Fully synthetic to provide very wide temperature stability and extended service intervals
- Additives reduce foaming for less residue and scum build up

## Directions for Use

For use in hydraulic systems where an ISO 32 viscosity grade is specified. Follow manufacturer's instructions and purge the system of the previous oil before re-filling.
